

# Technical Data Sheet

## System Requirements

- Microsoft® Windows® 7 (32- and 64-bit), XP PRO (SP3), or Vista Ultimate (SP1)

**Note:** *Make sure your PC meets the minimum hardware requirements of your operating system.*

- 100MB available hard disk space
- Recommended Ports: USB, Parallel
- 1024x768 or greater (true color)
- CDROM Drive

## Supported Graphic File Formats

- Bitmap (\*.bmp)
- TIFF (\*.tif)
- JPEG (\*.jpg)
- Portable Network Graphic (\*.png)

For best results, use high-resolution graphics (such as those used for printing in yearbooks or letterheads). Most images created for a website don't work well because of their lower resolution. Black-and-white or grayscale graphics produce the best results, although grayscale graphics with many gradations can produce less-desirable results.

## VariQuest Content

The **VariQuest™ Design Center Software v2.0** comes pre-populated with the following content:

- 950 Poster Maker Templates
- 765 Awards Maker Templates
- 3345 Print Graphics
- 50 Cutout Maker Shapes
- 2 Cutout Maker Collections
- 2 Cutout Maker Fonts

In addition, customers may order a "Premium Access" CD which can be used to activate all additional shapes, collections and fonts that are not part of any of the Learning Modules CDs. There are two options: 1) *Premium Access - Unlimited* provides unlimited access to shapes. 2) *Premium Access* provides access to all shapes for a limited 12-month period. If the subscription expires, you will only be able to access shapes that you have previously purchased (plus the free shapes included with the software). When the activation period expires, you can renew the shapes by contacting Customer Relations. A free 90-day trial version of the Premium Access option is included with the software.

Customers can also order "Learning Modules" CDs that contain exclusive shapes, collections and fonts specific to a learning module. Learning modules are related to a particular subject and grade level. Each learning module contains about 50-100 shapes. Some learning modules may also include additional fonts and/or collections. The customer also receives a printed copy of the associated "Module Activity Guide" when a learning module is ordered.

## Compatible Printers

**Note:** *The VariQuest™ Design Center Software v2.0 was developed and tested for use in the following printers and devices. The device drivers come pre-loaded on the VariQuest™ Design Center 1000 and are included as part of the installation CD of the software.*

- **VariQuest™ Cutout Maker 1800**
- **VariQuest™ Awards Maker 400**
- **VariQuest™ Poster Maker 3600**
- Prolmage® Plus3000 PosterPrinter™
- Prolmage® XL3000 PosterPrinter™
- Standard sheet-fed type printers may also be used for printing 8.5x11 originals, User Guides and Learning Module Activity Guides. Depending on the type of printer the customer owns, additional drivers may need to be added.
